Smart lighting

Smart lighting solutions which give you full control, via your smart device, of the on/off, dimming and scene setting of the environment, its ease of use,simple installation and scalability makes Yourlite perfect for an endless list of applications.

YUSING | Smart System

How it works

Cloud

Phone

WiFi Products

Router

Bluetooth Products

zigbee Products

Gateway

Bluetooth Mesh Products

Multi Communication Mode Module

Professional intelligent enabling lighting products

Wi Fi

· Remote control through router without gateway.
· Low user threshold, simple operation.
· Various types of products can be interconnected.
· OTA upgrade flexible.

zigbee

· The system is mature, stable and reliable.
· Gateway can realize local linkage.
· The number of connected devices is large and the distance is far.
· It can be upgraded by OTA.

Bluetooth

· Mobile direct connection and gateway connection are optional.
· It has the lowest cost and great advantage.
· It is suitable for independent small system without network.

Bluetooth Mesh

· Mobile direct connection and gateway connection are optional.
· Many-to-many device communication can be realized,
  which helps build a large-scale device network that requires
  tens or hundreds of nodes.
· It is suitable for independent small system without network.

Our Technology

· Using existing modules to develop products.
· Using blank module, independent firmware seconary
  devel opment, realize the difference between function
  and APP.
· Realize chip board technology and reduce cost.
· Chip independent procurement, docking cloud services,
  software code autonomy.

5 Networking module available

Wifi & Bluetooth	Wifi	Zigbee

Bluetooth	Bluetooth Mesh

Connect Instruction

1. Switch three times to ensure the flashing state of the light source.

2.Open TUYA APP and click the plus sign in the upper right corner.

3.Select lighting to connect applications.

4.Connect light bulbs only via WiFi for the first time, please make sure that the light is quickly flashing, and WiFi password you inputted is correct.

5.After the device is connected successfully, tap "Devices" at the bottom. The device name of the smart lamp shows in the list. Tap it to enter the control panel of the smart lamp.

Color temperature adjustment
## enjoy the warm life of light

Spring (Neutral) Color temperature.
Neutral bright white light, feel the breath of spring germination.

Summer (Cool) Color temperature.
Cold white light is like a refreshing breeze when you open the freezer.

Autumn (Neutral) Color temperature.
Slightly warm sunlight is like the joy of autumn harvest.

Winter (Warm) Color temperature.
Golden light exudes the warmth of a fireplace in winter.

Warm light | Cold light
Biological law
return to nature's ecological light environment

7:00am
Start a day of energy

9:00am
devote yourself to focused work

5:00pm
relax and adjust in the afternoon

8:00pm
prepare to rest in the evening

night
A good sleep
Low brightness, low light
Sleep uninterrupted

In the morning
The best part of a day is in the morning
Cold light colors are protected from attack
Energize your body

day
Need to rest and adjust
Cold light changes to warm light
Reduce brightness

In the evening
relax
Warm light
Melatonin begins to secrete

MLT   cortisol

Sharing the joy of technology
Warming up the home enviornment
Security Automation
Home lights flashes red to alarm,
while camera captures human activities.
Scene Automation
Turn on the light when sensor detects a
person passing by, turn off the light after
30 seconds automatically.
zigbee **Bluetooth®**

• TUYA smart ZigBee/Bluetooth gateway;
• DC5V 1A;
• Size: 60*60*16mm;
• Net weight: 50g;
• Operating temperature: - 20-60 ℃; Operating humidity: 5% - 90% RH;
• Red and blue indicator lights (blue light means Bluetooth, red light means WiFi).

Smart Gateway				
Item No.	Type	Color	Adapter output	Size
Smart-WG100-ZGB	ZigBee	White	DC 5V 1A	60*60*16mm
Smart-WG100-BL	Bluetooth	White	DC 5V 1A	60*60*16mm

WiFi

• Tuya WiFi light sensor;
• Input voltage 12V;
• Sensing Range: 1~1000lux;
• It can be linked with intelligent lighting products;
• Size: 58*33*16mm.

Illumination Sensor				
Item No.	Type	Color	Input Voltage	Size
Smart-SAL001-E	Wifi	White	12V	58*33*16mm

CE ✓RoHS **RED**

Wi Fi

• Communication protocol: WiFi (only supports 2.4G, not 5G);
• Detection range: 360º;
• Power supply: 110-130Vac, 220-240Vac;
• Rated load: Max 1000 W (110 - 130 Vac); 2000 w (220 - 240 Vac);
• Detection distance: Max 8m (< 24 ℃);
• Time delay: 10sec ± 3sec ~ 30min ± 2min (adjustable);
• Ambient light: < 3-2000lux (adjustable);

Smart strong electric infrared motion sensor

Item No.: Smart-RT6006-WF-GW   Ambient Light: <3-2000LUX (adjustable)

Detection Angle: 360°   Time Delay: 10sec±3sec to 30min±2min(adjustable)

Detection Distance: MAX.8m   Power Source: 110-130V/AC   220-240V/AC

Material: PC   Rated Load: Max.1000W (110-130V/AC)

APP: Support IOS and Android   2000W (220-240V/AC)

## Smart strong electric infrared motion sensor

Item No.: Smart--RT6007-WF-GW   Ambient Light: <3-2000LUX (adjustable)

Detection Angle: 360°   Time Delay: 10sec±3sec to 30min±2min(adjustable)

Detection Distance: MAX.8m   Power Source: 110-130V/AC   220-240V/AC

Material: PC   Rated Load: Max.1000W (110-130V/AC)

APP: Support IOS and Android   2000W (220-240V/AC)

CE RoHS **RED**

zigbee **WiFi**

• Communication protocol: WiFi (only support 2.4G, not 5g) or ZigBee;
• Double induction probe;
• Installation angle: any angle;
• Water leakage reminder: alarm + APP reminder;
• It has the function of battery low voltage reminder: local reminder + APP reminder;
• Alarm DB: 90dB@3 inch;
• Battery: 3 × AAA batteries, DC4.5V, for about 24 months;
• Material: Polycarbonate.

Intelligent Controller

Wi Fi **RF**

• The installation is fast and convenient, which reduces the noise and dust pollution during installation.
• It can match any number of combinations within 20, add switches and so on, and it doesn't need to rectify the circuit. It can be used after pairing, bringing a lot of fun and convenience to life.
• The switch does not need to be equipped with batteries, and has a built-in micro energy kinetic energy acquisition module, with a service life of 5-10 years.
• The switch installation does not need wiring to the switch, and it is controlled by 433MHz RF, which saves a lot of time for wall cutting and pipe laying and material cost
• No need to install on the wall.
• IPX5

Wireless Kinetic Energy Switch

Item No.: Smart-WSG02	Power Mode: Self Generating
Work Type: Reset Switch	Distance: 30m (indoor), 100m (outdoor)
Working Frequency: 433MHz	Controller Voltage: AC100-240V
Transmit Power: +110dbm	Color: White/Support customer customization
Material: PC	Controller Size: 60*32*23mm
Lifetime: 100000 times	Size: 86*86*13.9mm

CE RoHS **ErP RED**
- The smart socket combined with APP can more easily manage the useful equipment in the home. The remote control function can conveniently switch on and off the electrical equipment in the home. It has timing and countdown functions, which can make the home appliances automatically turn on or off.
- Four USB charging ports, smart chip automatically distributes power, supporting mobile phone and flat panel fast charging.

- Through intelligent voice speaker, voice control socket switch can be realized without hands.
- The safety protection door can avoid the electric shock hazard caused by the insertion of fingers or small objects.
- Support 2.4A fast charging.
- Support over-current and overload protection.
- Non slip foot pad, can be placed on any desktop.
- Soft light design of indicator light, gentle guidance at night, no interruption when falling asleep.
